Folks,

Several have asked for more time to prepare/update their white paper for submittal to the NRRB. After discussions here, EPA is extending the date for completion of these papers by one week, or by 5/27/2016. Please let me know if you have any questions on this.

**Subject:** San Jacinto NRRB Meeting

FYI, the National Remedy Review Board meeting for the San Jacinto Site is currently scheduled for June 15, 2016. Some of you did a white paper on site remedy selection issues for submittal to the NRRB in the past. If you previously did one, please let me know if you would like to update it, or just submit your previous one to the NRRB. If you wish to update it, I would appreciate receiving your update (or your original paper if you didn't do one before) by 5/20/16. All papers received will be submitted to the NRRB for their consideration.

Please let me know if you have any questions on this.

Thanks,

Gary Miller
